Keep Me Safe

On July 4th

PRESIDENT'S MESSAGE

Well here it is time again for another newsletter. We continue with our programs: spay/neuter, feral cat, food and medical assistance. Our feral cat program has altered only 15 cats this year! Hopefully we are seeing Neide's hard work pay off. Without your support we wouldn't be able to fund these worthwhile projects. Thank you!!

Canine Influenza has been in the news a lot of late, mainly due to an outbreak that started in the San Jose/San Francisco bay area in January of this year. Dr Freng of the Tehachapi Veterinary Hospital tells us that it has now spread to multiple other counties throughout the state. There have been a number of cases now confirmed in the central valley region. Given the close proximity to Tehachapi, he feels there is a legitimate concern for the outbreak reaching Kern County. In response, the veterinary community made the decision to proactively vaccinate all at-risk dogs in an attempt to stop it's spread. To see Dr. Freng's entire article, including symptoms and treatment, go to our website www.Tehachapihumanesociety.com. While you are there check out the new website in it's entirety.

Have a fun and safe summer! And remember to bring your animals in on July 4th!!

Kate
